PART A: STRATEGIC OVERVIEW

1. ESTABLISHMENT OF THE DISTRICT

The Suaman District Assembly (in exercise of the powers conferred on the Minister responsible for Local Government and Rural Development) by subsection (1) of section 3 of the Local Governance Act, 2016 (Act 936), was established on 28th day of June 2012. The Suaman District was among the five districts that were created in the Western Region in 2012. It was carved out of the then Aowin-Suaman District with Suaman Dadieso as the capital. Legislative Instrument {LI} 2016 of 2012 established the Assembly. The size of the district is about 400.14 square kilometers and it has a population of 20,529 (GSS, PHC 2010)

1.1 Location and Size

The district is located in the Western North Region of the country. It is bounded on the North by Juaboso, North-East by Sefwi-Akontombra and Bodi, Aowin District to the South-East and the Republic of Cote d' Ivoire to the West. The size of the district is about 400.14 square kilometers.

The major communities in the district include Dadieso, Kwasuo and Karlo. The district is endowed with natural forest cover and arable land. Because of this, it has been attracting migrants from other parts of the country thus giving rise to diverse ethnicity and cultures. The major ethnic group is Anyiis. Other minor ethnic groups are of Northern and Ewe extraction. Majority of the population are Christians with a small fraction being Muslims and Traditionalists. The District has two (2) area councils (Dadieso and Karlo Area Councils)

1.2. POPULATION STRUCTURE

According to the 2010 Population and Housing Census, the Suaman District has a total population of 20,529 consisting of 10,646 Males (52%) and 9,883 Females (48%) with a growth rate of 2.5 percent. By estimation the current population of the district for 2020 is 26,936 consisting of 14,007 Males and 12,929 Females.

2. VISION

To become an efficient and reputable district with improved living standards for the people.

3. MISSION

The Suaman District Assembly exists to improve upon the quality of life of the people through effective and efficient planning in partnership with other stakeholders for sustainable utilization of the district's resources

4. GOALS

The general goal of the Suaman District Assembly is to provide basic socio-economic infrastructural facilities for sustained productivity and production towards poverty reduction and improved living standard of the people in the district.

5. CORE FUNCTIONS

The core functions of the Suaman District Assembly are outlined below:

- ❖ Exercise political and administrative authority in the district
- ❖ Promote local economic development.
- ❖ Exercise deliberative, legislative and executive functions.
- ❖ The overall development of the district.
- ❖ Promote and support productive activity and social development in the District and remove any obstacles to development.

6. DISTRICT ECONOMY

a. AGRICULTURE

Agriculture is the dominant economic activity of the district employing about 79% of the labour force, out of this 40% are into cocoa farming and the remaining 39% are into cassava, plantain, rice production, vegetables, livestock and poultry production, fish farming and other Agricultural related activities. The district during year under review has adopted modern agricultural practices such as training in Climate Smart Agriculture, proper disposal of empty agro-chemical containers, improved planting materials and improved breeds to increase agricultural production at the various levels.

The district in the year under review registered 4,325 farmers (2,314 males and 2,011 females) under Planting for Food and Jobs (PFJ) and out of this, 3,020 have actually benefited from farming inputs (maize 1,725 and rice 1,295).

The district in the year under review registered 1,376 farmers (1,002 Males and 374 Females) under the Planting for Export and Rural Development (PERD) programme and out of this, 1,167 farmers (851 Males and 316 Females) have been supplied with 620,000 cocoa and oil palm seedlings (600,000 and 20,000 respectively) and hope to increase to 700,000 seedlings (660,000 cocoa and 40,000 oil palm) by 2020.

Also, under the Modernizing Agriculture in Ghana (MAG) programme, 4,801 farmers (3,095 Males and 1,706 Females) have benefited from farming inputs supplied and hope to increase to 6,000 by 2020. The district will educate, guide and inspire farmers in order to improve productivity and increase the income levels of farmers.

b. MARKET CENTRE

The weekly market at Dadieso in the district is the major marketing centre where commodities from other places and communities are traded. The District also has Three (3) small market centres at Karlo, Kwasuo and Antokrom that also operate weekly. Modern markets that enhance trading and other commercial activities and directly generate revenue to the Assembly are woefully inadequate in the district.

The Dadieso market is the only major market in the district, but unfortunately cannot boast of any modern facilities. The market also lacks sanitation and water facilities, the basic services required for the effective operations of the market.

c. ROAD NETWORK

The Suaman District Assembly has improved and reshaped 78.3km of feeder roads from January 2020 to date and will continue to maintain the feeder roads to ensure a good road network and an enabling environment that will encourage development

Table 1 shows some specific roads and their status in the District. The Assembly has plan to construct 4 no. culverts on Adiepena and Nipahiamoah roads to improve accessibility to communities.

Table 1: STATUS OF ROAD NETWORK IN THE DISTRICT

No.	NAME OF ROADS	No. of KM	STATUS
1.	Akontombra - Nkwanta-Dadieso	18 km	Tarred
2.	3 Miles – Asuopokua	5 km	Reshaped

4.	Dadieso SHS Junction - Obengkrom	8 km	Reshaped
5.	Lugu Junction – Lugu	6km	Reshaped
6.	Adiepena Junction – Gyaketey	18 km	Spot improvement

c. EDUCATION

From table 2, the district has inadequate schools and trained teachers to deliver quality education at the KG and Primary level. This is because the number of untrained teachers exceed the number of trained Teachers in those categories except that of the Junior High School and Senior High School. The district also has one Senior High School, located in the district capital- Suaman Dadieso.

The District will continually improve quality teaching and learning and increase equitable access to and participation in education at all levels. The total enrolment figure in all categories stands at 12,847 Pupils/Students.

Table 2: ENROLMENT OF SCHOOLS IN THE DISTRICT

Category/Level	No. of Schools	Trained Teachers	Untrained Teachers	Enrol. of Pupils (Males)	Enrol. of Pupils (Females)	Total Enrolment

d. HEALTH

The district has one (1) Hospital, one (1) Health Centre, Seven (7) CHPS Compounds, one (1) Clinic and one (1) Maternity Home. It seeks to bridge the equity gaps in access to health care, prevent communicable diseases and promote healthy lifestyles and to ensure affordable, equitable, easily accessible and Universal Health Coverage (UHC).

e. ENVIRONMENT

The Suaman District Assembly seeks to accelerate the provision and improvement of environmental sanitation and disseminate information on hygiene to communities.

f. WATER AND SANITATION

Supply of adequate potable water to all communities in the district is a major issue of the Assembly. There exist potentials and opportunities to help achieve this target. The constraints and challenges can be overcome by adopting appropriate interventions such as Public Private Partnerships (PPPS) and proposals for development partners, NGOs, Donors and CSOs to assist in the provision of quality water and sanitation management.

Suaman District seeks to accelerate the provision and improvement of environmental sanitation, disseminate information on hygiene to communities, and promote efficient and sustainable waste and water management.

e. ENERGY

In the area of electricity, almost all the larger communities in the district are connected to the national grid and in the remaining communities, works are ongoing to get them connected. The Assembly has made provision to procure light poles and street bulbs for electricity extension and street lighting.
